**A SUCCESSFUL AND LONG-STANDING  
PARTNERSHIP IN RECYCLING  
TECHNOLOGY**

## A Strong Partner in a Long-Term Partnership

For some time now, Anlagenbau Günther, a manufacturer of stationary recycling plants and other equipment, has been working with LBS Conveyor Belts as a supplier of conveyor belts and associated on-site installation services. The partnership arose from a combination of price and performance, including the network of service locations within REMA TIP TOP AG, and has developed

into a **stable, long-term relationship**. In a sector where customisation and speed are essential, LBS distinguishes itself through flexibility and short lines of communication. Thanks to direct contact with dedicated specialists, decisions are made swiftly and collaboration is efficient. The partnership with LBS is viewed positively and described as such by Anlagenbau Günther.

## Reliable performance in practice

The **conveyor belts** from LBS and the installations **executed by** by REMA TIP TOP AG deliver consistent and reliable performance across a wide range of recycling plants and applications. The quality, service life and execution of the work are well aligned with practical requirements.

As a regular supplier, LBS plays a key role alongside REMA TIP TOP AG in a wide range of projects. The right belt quality and execution contribute directly to the performance of entire systems and, consequently, to success with end customers.

**“A reliable partner that adapts to our projects and delivers what is needed. We have already recommended LBS to other companies.”**

– Anlagenbau Günther

## Trust from the market

The partnership is not only valued internally by Anlagenbau Günther, but is also actively recommended within the recycling and sorting industry.

## Ready for the future

Anlagenbau Günther and LBS look forward to continuing their partnership, with scope for further optimisation and joint development, always focusing on the right balance between quality and price.

## Core values of the partnership:

- Long-term partnership based on trust
- Flexible and solution-oriented approach
- Reliable performance in demanding applications
- Fast communication and short lines of communication
- Strong position as a supplier in recycling projects

At LBS Conveyor Belts, everything revolves around delivering complete solutions that go beyond the product itself.

As part of REMA TIP TOP AG, we are able to facilitate these (larger) projects both within and outside the EU. For our customers, this means a single point of contact, short lines of communication and efficient execution, wherever the project is located. Through this integrated approach, we combine craftsmanship, speed and local expertise. The result is a seamless process from production to installation, where quality and reliability always come first. The installations already executed

for Anlagenbau Günther speak for themselves: projects that have been completed smoothly and successfully thanks to intensive collaboration between **LBS, REMA TIP TOP AG and Anlagenbau Günther**. It demonstrates what we stand for: achieving results together, exceeding expectations and creating sustainable value. With LBS Conveyor Belts, you are not just choosing a product, but a partner who thinks along with you, takes the pressure off and delivers worldwide as part of REMA TIP TOP AG.
